

Galapagos Extension

Duration: 9 days

The Galapagos Islands, an isolated rocky archipelago lying roughly 1000km off the coast of Ecuador, are neither easy nor cheap to get to, but they are justifiably world-renowned for their unique wildlife and incredible biodiversity. They are also inextricably linked to Charles Darwin, whose later Theory of Evolution owed a great deal to his observations in these volcanic islands.

Known as one of the best places to view wildlife on the planet, many of the species here can be found nowhere else, and the marine habitat is fiercely protected. The creatures are largely unbothered by human presence, allowing for the unparalleled close-up encounters which make the Galapagos so special.

Our week's exploration is active and packed with highlights, including snorkelling, kayaking, and walking as we discover these volcanic islands and see the famous giant tortoises, as well as penguins, turtles, sea lions, marine iguanas and a rich array of birdlife. We also visit the Charles Darwin Research Station on the small island of Santa Cruz.

This tour is not private to our group, which has the advantage not only of assuring guaranteed departures, but also making the costs of visiting this bucket-list destination more realistic for our customers.

Single supplement: £495

DETAILED ITINERARY

Day 1: Papallacta Hot Springs

(main group departs for Quito airport)

An extra day to make the most of this magical location. You are free to relax in the hot springs, or explore the surroundings – there are plenty of things to do. There's also a hummingbird farm a short distance away, where over twelve species of hummingbird and other exotic birdlife can be seen (activities at your own cost).

Breakfast provided. Hotel accommodation

Day 2: Quito (Sun)

We transfer to Quito, where you can enjoy a day relaxing or exploring, before meeting up with your guide and rest

of your Galapagos group in the evening.

Breakfast provided. Hotel accommodation

Day 3: Quito – Isabela

We take a morning flight from Quito to the Galapagos, and travel by bus and boat to Isabela, the largest island in the archipelago, and home to most of the volcanic activity. On arrival we settle in to our hotel and relax!

Breakfast provided. Hotel accommodation

Day 4: Snorkel at Lava Tunnels

Today our adventure gets going! We explore the labyrinth of lava arches on Isabela's coast, formed by cooling lava flows over and under the water into a series of striking natural bridges and arcs. It's a haven of clear, calm water for many marine creatures which use it as a natural highway from the coastal mangroves to the open sea. Snorkelling allows us to appreciate these unique rock formations underwater, as well as swim among creatures such as sea turtles, sea lions and eagle rays.

Breakfast and Lunch provided. Hotel accommodation

Day 5: Sierra Negra Volcano Hike & Kayaking

Another active day, at a relaxed pace! An easy hike takes us to the rim of Sierra Negra, Isabela's most active volcano. Situated on the south-easterly tip of the island, the caldera is over six miles across at its widest point. This is a wild landscape with colourful volcanic terrain and plenty of bird life. In the afternoon we visit Tintoreras Islet, home to marine iguanas, blue-footed boobies, Galapagos penguins, turtles, sea-lions and, most famously, white-tipped reef sharks. A relaxed paddle in two-man sea-kayaks allows us to enjoy the wildlife and surroundings.

Breakfast and Lunch provided. Hotel accommodation

Day 6: Charles Darwin Research Station

Today takes us to Santa Cruz Island to visit the Charles Darwin Research Station. Here we can learn about many of the endemic wild creatures, as well as the ongoing efforts to protect them. Afterwards, we head to the El Chato Reserve, home to the famous Galapagos tortoises.

Breakfast and Lunch provided. Hotel accommodation

Day 7: Fly Galapagos to Quito

Board our flight back to Quito and transfer to our hotel; free time.

Breakfast provided

Day 8: Flight departs

Transfer to airport for international flight back to London

Day 9: Arrive UK

Single supplement: £495

It's advisable to book as early as possible to avoid any problems with availability.

WHAT'S INCLUDED?

- Flight from Quito to Galapagos Islands; any locally-paid internal flight tax
- Transfer between Papallacta and Quito, and airport transfers
- Transportation in Galapagos (by bus and speedboat)
- Good standard hotel accommodation, twin-share basis: Quito (4*) and Galapagos (3*)
- Meals and activities as indicated in itinerary
