

Hotpod Yoga Trek Mount Toubkal

Duration: 5 days

The High Atlas Mountains run south-west through Morocco. They are remote, barren and absolutely stunning. Our challenge is to climb their highest peak – and the highest in North Africa: Mount Toubkal, at 4167m.

Our ascent is tough, steep and rocky, there could be some snow leftover from winter and the effects of being at altitude add to the challenge. However, the magnificent views from the summit – reaching across to the Sahara Desert – and our sense of achievement more than compensate for our efforts. This trek is achievable for most people provide they train well, have a good level of fitness and determination. Winter trekking experience is not required, however if mountain conditions dictate, we will be advised to wear crampons for safety reasons.

We also witness the local way of life as we pass through colourful villages, where Berbers farm in the river valleys and herd goats and sheep in the mountains. The ancient city of Marrakech, with its labyrinthine streets and intriguing souks, provides the perfect contrast.

DETAILED ITINERARY

Day 1: Wednesday 15th April 2020: Fly Manchester to Marrakech

Depart Manchester on flight MT 754 at 0600, arriving in Marrakech at 0935. On arrival we transfer the short distance to our hotel, where we will have free time before meeting in the evening for dinner and a trip briefing before a good night's rest! Night hotel.

Day 2: Thursday 16th April 2020: Marrakech – Imlil – Refuge Camp

After an early breakfast we load up and drive into the mountains to the small village of Imlil (1740m), where we meet our guides and mules, and set off! Our route takes us uphill through walnut groves, emerging into a flood

plain which gives us a brief respite from the climbing. Our path then rises again through a winding valley into remote mountains; the views are beautiful especially if there is still a covering of snow. We pass through the tiny hamlet of Sidi Chamharouch (2200m), which has grown up around a Muslim shrine, then zig-zag more steeply into the valley, surrounded by snow covered slopes. It's then not long before we arrive at camp, below the refuge at the base of Toubkal. Evening yoga class with Minna and night refuge (3200m).

Drive approx 2 hours; trek approx 10km / 6-8 hours; height gain 1460m

Day 3: Friday 17th April 2020: Toubkal Summit

Our summit beckons: Mount Toubkal, the highest peak in North Africa at 4167m. We rise early, to allow plenty of time for our ascent, and after a good energy-boosting breakfast we set off. It's cold on the mountain this early in the morning but the exercise warms us nicely! Early in the spring trekking season, snow could still be present depending on the harshness and length of winter. We trek along well-trodden rocky boulder-strewn tracks that twist their way up the mountain. We admire the early morning sun illuminating the spectacular snowy landscapes around us as we ascend. We gain altitude steadily as we climb up slowly through a hanging valley with dramatic landscapes all around us; there are some steep shale sections here and snow underfoot. We come to a col with fabulous views; we can see the Sahara Desert from here. We can also see the last section of the climb ahead of us, with tantalising views of the summit. This last hour is tough, as we follow a snowy ridge but then we are standing at the summit – a real achievement. We have enough time to savour the sensation of being on top of North Africa's highest summit, before we descend the same way, zig-zagging quite steeply and then crossing the large rocks and boulders of the lower section. We can see the refuge and our tents from quite high up, and feel euphoric as we return to it. We have time to relax with a mint tea, enjoying the views from camp. Evening yoga class with Minna and night refuge (3200m).

Trek approx 8km / 6-8 hours; height gain / loss 967m

Day 4: Saturday 18th April 2020: Refuge Camp – Imlil – Marrakech

After breakfast we trek downhill, back to Imlil, admiring the landscapes of this beautiful hanging valley. Our legs are tired and we take it easy, but the tracks should feel much easier than they did on the way up! On arrival in the village we have lunch, then meet our transport and head back to the buzzing city of Marrakech. We have time to explore the fascinating Jma El Fnâa, the main square, with its food stalls, snake charmers and musicians, and haggle for souvenirs in the fascinating souks – a real contrast to our remote mountains paths and a memorable way to end our adventure! We meet again in the evening for a slap-up dinner to celebrate our achievements. Night hotel.

Trek approx 10km / 5-7 hours; height loss 1460m; drive approx 2 hours

Day 5: Sunday 19th April 2020: Fly Marrakech to Manchester

Transfer to the airport for our flight back to Manchester. Depart Marrakech on flight MT 753 at 1100, arriving in to Manchester at 1435. *(Lunch not included)*

Discover Adventure reserves the right to change the route or itinerary for safety reasons should local conditions dictate.

Copyright DA2006 / Updated 2019

Fees for any optional sites, attractions or activities

Any applicable surcharges as per Terms and Conditions

CHALLENGE INFORMATION

DETAILED INFORMATION

Leaders & Trip Support

Your trip will be led by experienced Discover Adventure leaders. Our leaders are selected for their experience in harsh wilderness environments, knowledge of travel in remote areas, friendliness and approachability, sense of humour and ability to safely and effectively deal with any situation that arises. They are also trained in expedition first aid. You are in very safe hands with a Discover Adventure leader. Usually leaders are based in the UK or other English-speaking countries and lead for us regularly throughout the year in many different countries. In some instances, trips are led by in-country guides with a wealth of knowledge about the region; they have been trained by us to provide the level of support expected on a Discover Adventure trip.

Local Support Crew

Our local support crew is made up of local guides, assisted by drivers, porters, cooks and other support staff, depending on the type of trip. Local guides know the area well, and are a great source of knowledge about local customs and

lifestyles. Not all support crew will speak English well, but are very friendly and approachable. The Discover Adventure crew work closely with the local crew to ensure your trip runs smoothly and safely.

Your leader will arrange a collection of tips for the local support crew at the end of your trek, and you will be provided with a guideline amount in advance. Tipping is not obligatory, but once you see how hard they work on your behalf you will be happy to donate something! All our local crew are paid wages, but bear in mind that the average wage in many countries may be less than you would spend on an average night out.

Trip Safety

Your safety, and that of the rest of the group, is our highest priority. Our trips are designed and planned with safety in mind. Your crew will be equipped with communication devices (eg phones, radios and/or emergency satellite phones), medical kit and other safety apparatus appropriate to the destination. Our leaders always have access to our 24-hour emergency UK back-up. They are responsible for safety on the trip, and will make any changes to the itinerary they deem necessary, should local conditions dictate. Pre-trip administration - such as medical questionnaires and travel insurance as appropriate - is all done with your safety in mind.

Flight Information

For this Private Adventure, the return group flights are from Manchester and are booked through Discover Adventure Ltd under ATOL licence 5636. You will usually receive confirmed flight details several months before departure. We do not always use the same airline for each destination and low cost airlines may be used for short haul flights. If you wish to know the probable carrier and flight times, please call for details.

By travelling with Discover Adventure you are protected by the Civil Aviation Authority (CAA). Our itineraries are always based on current flight schedules and are therefore subject to change by the airline. If you prefer to book your own flights please ask us for a land-only cost.

Accommodation

We camp in two-man tents; these are usually expedition-style (ie sleeping room only). Camps are usually simple, in remote locations with great views! We have communal dining areas (usually with tables and chairs/stools) and toilet tents, and the local crew look after us very well. We stay in hotels (of a 2-3* standard or equivalent) at the start and end of the trip; standards may vary between different hotels, but they are generally clean and comfortable with good facilities.

Roomshare Arrangements

Accommodation is usually on a twin-share basis. Occasionally we may use hostel-style accommodation. Please tell us if you know somebody else on the trip that you would like to share with and we will try our best to accommodate your request. If you don't know anyone else in the group don't worry, we always pair you up with someone of the same gender, and a similar age where possible. We do not charge a single supplement if you are a solo traveller in a shared room.

Group Size

Your booking is part of a group challenge, and the tour costs and fundraising targets listed on our website are based on a minimum number of participants which is shown on the challenge. Our typical groups run with approximately 15-25 participants; however you may find your group is smaller or larger than this.

We will confirm at least 12 weeks prior to departure that your challenge is guaranteed to run. Occasionally it may be possible to still run the challenge with less than the minimum numbers, subject to a small group supplement. If we think a small group supplement may be necessary, we will discuss this with you as soon as possible, usually 5 months before your departure date.

Minimum numbers and groups sizes may vary on Bespoke Charity challenges. If you are booked onto a bespoke challenge please contact your charity for full details.

Food & Dietary Requirements

The food provided is plentiful, often local in style and freshly-cooked, and will give you plenty of energy. Sometimes we enjoy a buffet-style lunch-stop, other times we might have packed lunches. On some trips we stop at small local restaurants. Dinners are generally eaten at our accommodation each evening. In some regions there may be less variety than you are used to, and in others fresh meat or produce can be harder to come by. Any meals not included are listed in the itinerary and are generally on travel / free days, giving you the opportunity to explore and try other culinary experiences! There is always something to suit different budgets.

Being vegetarian or having other dietary requirements is not usually a problem provided you let us know well in advance. Please do not expect as much variety as you would have access to at home – we may be in very rural or remote areas, or among people of a different culture who may not understand your requirements, however willing they are to help. If you know there are plenty of foods you cannot eat we strongly recommend you bring extra snacks from home so you can top up your energy supply. Please feel free to ask us for advice.

Luggage

Your luggage, food, water and equipment is transported for you from one night-stop to the next. If there is easy road access this is done by vehicle; if not porters, mules or even camels might carry your bags, depending on the terrain.

Space is limited and hard-sided luggage is not suitable, so it is essential that your kit is packed in a soft bag, rucksack or expedition kitbag. Ask us about our specially-designed low-cost kitbags if you don't have one already. You should also bring a small daypack to carry for items needed during the day as you will not have access to your main luggage until the evening.

PREPARING FOR THE CHALLENGE

Fitness Levels

This is designed to be a challenge, and it is vital that you train sufficiently for it. We will supply you with a thorough training guide once you have registered. We expect all participants to train hard in advance, but we respect everyone's

limits and do not expect everyone to maintain the same pace. Inadequate training is likely to have an impact not just on your chances of completing the challenge, but enjoying it too - and we want you to have the time of your life!

Our challenges attract people of all levels of experience, fitness and ability as well as all ages and backgrounds. We design our challenges so that everyone can go at their own pace: this is not a race. If you have concerns about your fitness or if you have reduced mobility please do contact us for a confidential chat about whether this challenge is appropriate for you.

For logistical and safety reasons we sometimes need to re-group, so the front-runners may find themselves waiting for the slower ones. Please relax, and remember that this is a team effort that enables people to achieve their personal goals and earn sponsorship.

Passport & Visa / Vaccinations

Entry requirements vary depending on your destination and nationality. It is your responsibility to ensure your passport is valid, and any visas are obtained in good time. Check the [FCO's advice](#) on entry requirements for your destination to be sure. Please ensure you allow plenty of time to apply for your visa; we will provide you with all necessary information 6 weeks prior to departure to assist with your application.

Your routine UK schedule of vaccinations should be up-to-date (especially tetanus). We recommend you check [Fit For Travel](#) for further details. You should always check with a GP or travel clinic for up-to-date travel health advice as it does change.

Clothing & Kit

We plan our trips around the optimal weather conditions, but could still be exposed to bad weather at any time. It is vital you are prepared for all conditions. We provide you with a detailed packing kit-list on registration, with plenty of information, and we are always available if you need advice.

Cultural Differences

For most people, the main attraction of travelling to a different country is to see new sights and enjoy new experiences. Sometimes those new experiences can make life harder or more inconvenient than you may like, such as toilet hygiene or different food, or simply a different attitude to solving problems. This is all part of the challenge you are signing up for! We are very privileged to live in a country with a high standard of living, and travelling exposes us to different challenges – all of which help broaden our horizons. We can guarantee that coming face-to-face with experiences outside your normal 'comfort zone' will help you bond with your fellow participants and provide you with plenty of things to laugh about! A sense of humour and sense of adventure are two of the most important things to bring with you!

Cancelling your booking

In the unfortunate circumstance that you need to cancel your booking, we would ask that you notify us in writing either by post or email. Your cancellation will be considered effective from the date the notice is received. Registration fees and amendment fees are non refundable and, depending on your payment option and how close it is to your challenge departure date, you may be liable for a cancellation charge.

Full details of all cancellation charges may be found in the Terms and Conditions of booking.

Discover Adventure reserves the right to change the route or itinerary for safety reasons should local conditions dictate.

Please note: This document was downloaded on 28 Mar 2024, and the challenge is subject to change.
