All 3 challenges are fantastic in their own right but combining them is a real treat. Not only do you have full free days in Paris and Geneva to explore even more of what these two wonderful cities have to offer, it economises on the finances compared to doing them seperately which can only be a good thing!

This trip generates around **257 kg of CO₂ per person**. Because of our commitment to responsible travel, **we offset 100% of these emissions**.

GRADE | ORANGE

All our trips are designed to provide a challenge. Trips are graded Yellow, Orange or Red, in increasing level of challenge. This trip lies within the **ORANGE** range.

The grade is determined by factors such as terrain, distance, climate, altitude, etc. Each colour grade has a **spectrum** which reflects the difficulty of these factors. Trip duration, accommodation and living conditions are also taken into account. Some sections will feel more challenging than others, but the grade reflects the overall trip. Unusual weather conditions can also have a significant impact.

The Accommodation icon indicates the living conditions while trekking/cycling. While there are usually several factors that present a challenge, the Challenge icon indicates the trip's most challenging element, for most people.
